

NAIOP Wisconsin & Marquette University

Summer HS Immersion Program

MARQUETTE UNIVERSITY

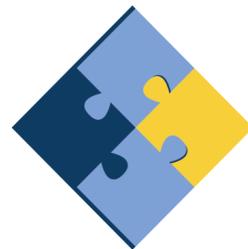

CENTER FOR REAL ESTATE

The MKE CRE Summer High School Immersion Program is back for 2022! MKE CRE is an in-person, week-long program for rising high school sophomores, juniors and seniors. The program is dedicated to helping high school students of color and from underrepresented backgrounds take charge of their future and provide knowledge about career opportunities in commercial real estate. Students will learn what it takes to design, build, manage, own, and sell commercial real estate and develop generational wealth! This once-in-a-lifetime opportunity will provide students in-person instruction from one of the top real estate programs in the country, as well as the unique opportunity to immerse themselves in tangible and hands-on experiences through site visits and intentional interaction with amazing real estate professionals working locally and across the country.

The program is co-produced by NAIOP Wisconsin and the Marquette University Center for Real Estate. Student participants will attend the program and stay at the Marquette University campus. There is no cost to students thanks to our generous scholarship sponsors!
