CONTACT TRACING. WHAT EMPLOYERS NEED TO KNOW.

WEBISODE - 7/23/20

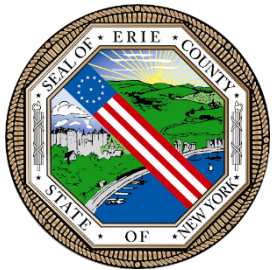

CONTACT TRACING. WHAT EMPLOYERS NEED TO KNOW.

WEBISODE - 7/23/20

Dr. Gale Burstein

Commissioner
Erie County Department of Health

Daniel Stapleton

Public Health Director
Niagara County Department of Health

Grant Loomis

Vice President
Government Affairs

Question #1

What is contact tracing and why is it an important part of our public health response to COVID-19?

Question #2

What is an employer's role in contact tracing?

Question #3

Does the county health department notify impacted employees about a positive case or is that the responsibility of the employer?

Question #4

What steps are then required for employees that had contact with COVID-19 positive co-worker?

Question #5

What steps should an employer be taking now to best prepare for assisting with contact tracing (e.g. employer interaction records, etc.)?

Question #6

Do employee interaction records have to be saved for a period of time? If yes, how and for how long?

Question #7

Does the county health department notify impacted customers or visitors about a positive case at a place of business or is that the responsibility of the employer?

Question #8

Does an employer only have a role in contact tracing if one of its employees tests positive for COVID-19?

Question #9

Does an employer have a right to know an employee's COVID-19 test results or to verify that a test has been conducted?

Question #10

What information as part of contact tracing is considered private and what information is public?
