HBA Membership is 3-in-1

LOCAL • STATE • NATIONAL

This Membership & Benefits Guide should help you or your company's decision-maker become aware of the benefits of an HBA membership. If you derive any or all of your sales volume from the building industry, this information should give you enough financial motivation to join right now. In order to understand your Return on Investment, you need to familiarize yourself with your membership. But remember, gaining new customers directly from your membership depends not on the association, but on you, your company's offering and your ability to influence. You'll get out of it, what you put into it.

DID YOU KNOW? Joining the Builders Association of Victoria, or any local chapter, also makes you a member of the Texas Association of Builders (TAB), and the National Association of Home Builders (NAHB), giving you all the benefits of a 3-in-1 membership.

MEMBERSHIP * = 188 Companies

MEMBERSHIP * = 10,200

MEMBERSHIP * = 150,000

CONSIDER THESE FACTORS WHEN YOU MAKE YOUR HBA INVESTMENT:

- **ADVOCACY** Think of us as your Legislative Watchdog. The HBA's continuously fight for housing and our efforts have a direct impact on your business financially. Think of it this way—if it affects Builders, it affects Associates.

TAB Advocacy efforts on the state level potentially save \$15,000 per home start. A builder member can save on average of \$5,500 by taking advantage of TAB's various programs and services.

- **NAHB Advocacy efforts saved an estimated \$7.0 Billion or \$5500 per housing start in 2019** on issues related to the International Building Code (IRC), International Energy Conservation Code (IECC), OSHA, DOL, EPA, storm water regulations, IRS, insurance, mortgages and more.

These savings not only help your business, but they also affect customers' and potential customers' ability to purchase your product or service, keep the cost of housing affordable. If homebuyers can't afford to build, than builders aren't building and in turn can't hire you.

- **MEMBER DISCOUNTS & REBATES**

Do you buy office supplies, vehicles, building supplies, or computers, rent cars, send packages, or need insurance? **Member discounts and rebate programs can put more cash back in your pocket, and can PAY for your membership.** How much you save depends on which programs you take advantage of.

- **INDUSTRY SPECIFIC EDUCATION** Your HBA has access to some of the top educational programs in our industry that can help you train your staff and sales representatives. Whether it's one or two classes on local building information or a full complement to achieve a building industry specific designation, your membership is the key. **This education is offered to non members, but at a much higher rate.**

- **SOCIAL NETWORKING & VOLUNTEERISM** When you evaluate your membership investment, consider the following questions: Are you just a name in the directory, or do you attend meetings and events? Do you do more than just attend events, do you interact with other members? Are you trying to sell your product or service, or are you building relationships for future business?

- **EXPOSURE & REFERRALS** Of course the CBA actively promotes **doing business with a member**, to other members as well as to the general public. We assist in those efforts through referrals, using our website and member directory and, by offering free & low-cost advertising to our members.
- **COMMUNITY INVOLVEMENT** Bring awareness to the residential construction industry with outstanding programs like the Parade of Homes, Home Product Show and partnering with other industry related organizations giving our members exposure, and reinforces our image as a professional organization that is involved in the community.
- **BUILDING INDUSTRY INFORMATION** Legal Tips and other resources are at members fingertips 24/7 through various websites, email newsletters and webinars. Informed members make better business decisions.
- **STRENGTH IN NUMBERS** Gives the homebuilding industry a **strong** voice before city councils and planning commissions, at the the Texas Capitol, before regulatory agencies, and in Washington D.C.
