## Glossary of Certificate of Origin terms

**Consignor** – The export shipper; typically, the party who is issuing the export invoice.

**Consignee** – Typically, the importer; the party to whom the shipment is being sent.

**Country of Origin** – The country(ies) of manufacture of the goods. It is very important that the exporter understands rules of origin (manufacture or substantial transformation) before declaring the origin of goods.

**Transport Details** – Air, ocean, rail, etc. as a means of shipment. Optionally included on a Certificate of Origin.

**Remarks** – Optional notations on the Certificate of Origin itself related to the shipment, most often Letter of Credit numbers or import license numbers (provided by your importer).

**Item numbers, marks, number & kind of packages, description of goods** – A general description of the goods is typically all that is required, and not full invoice details, unless otherwise specified by your importer or in a bank letter of credit.

**Quantity** – The gross and/or net weight or any measures and quantities. Gross and or Net weight(s) must be specified, as well as unit of measure (i.e., KG or LBS).
