

# SAME DAY ACH: Ubiquitous Same-Day Clearing & Settlement for ACH Payments

**Through private-sector rulemaking,** NACHA – The Electronic Payments Association brought the industry together to move payments faster on the ACH Network. Same Day ACH builds upon existing ACH Network next-day settlement capabilities, and establishes a new same-day settlement capability giving consumers, businesses and governments an option to send and receive payments faster.

## Same Day ACH: *Rule Specifics*

Under the new Same Day ACH Rule, two new same-day settlement windows will be added to the ACH Network, increasing the number of settlements between financial institutions from one to three times each day. The Rule also requires that all Receiving Depository Financial Institutions (RDFIs) receive same-day transactions and provide faster funds availability to customers. Additionally, the Rule establishes a Same Day Entry fee of 5.2 cents per transaction as a means to help RDFIs recover some of their costs for enabling and supporting mandatory receipt of same day ACH transactions.

## Same Day ACH: *Implementation*

Same Day ACH will be implemented in three phases.

	PHASE 1	PHASE 2	PHASE 3
