New Vice President of Education

Fort Worth, Texas (January 15, 2020) – IEC Fort Worth Tarrant County Chapter announces Henry "Hank" Strittmatter as the Vice President of Education. Because of our high school program's growth, Hank will spearhead working with the high schools, apprenticeship recruiting, and all other educational programs IEC offers.

Prior to joining IEC full time as the Training Director in 2012, Hank was the Service Coordinator for Zeig Electric Company in Fort Worth from 2005-2012. From 1992 to 2005, Hank worked as the Service Department Supervisor for Hicks Electric Incorporated in Fort Worth. In addition, he owned Strittmatter Electric Company, Incorporated.

Orville Young of Circle Y Electric was Hank's employer from 1971 to 1981. While employed there, Hank attended the IEC apprenticeship program. In 1977, he graduated from our chapter's first apprenticeship class. After graduation, he continued with IEC as an instructor and has become a licensed master electrician. Hank has been an IEC instructor for over 30 years and has enjoyed a long, successful electrical industry career.

With his electrical experience, training, and talents, it will allow the IEC Education Programs to grow and prosper. You may reach him at (817) 496-8422 or hank@iecfwtc.org.

IEC Fort Worth/Tarrant County Chapter of Independent Electrical Contractors (IEC), Inc., the industry's premier national trade association.
