

INTRODUCING THE NATIONAL INDEPENDENT CONCESSIONAIRES ASSOCIATION HEALTH PLAN

focused on
CONCESSIONAIRES

DID YOU KNOW THAT NICA HAS ITS OWN HEALTH CARE PLATFORM BUILT JUST FOR YOU?

With insurance premiums on the rise and no end in sight, The National Independent Concessionaires Association has created the NICAHP a health care solution that provides a unique opportunity to take control of your health care future.

The NICAHP was developed to help companies of all sizes, even a husband and wife, to leverage their buying power as part of a larger combined group to purchase health care benefits at competitive rates, even with pre-existing conditions.

MEDICAL BENEFITS

With a nationwide PPO network of over 800,000 health care professionals and more than 6,000 facilities, Cigna can offer you a variety of quality choices to help you stay well. A range of prescription drug plans that deliver comprehensive pharmacy coverage will also be available for you to select.

CHOOSING YOUR PLAN

NICAHP offers up to 7 Medical Plans that include PPO & HSA Options:

National Multi-Plan Network

Preferred Provider Organization (PPO) plans give you flexibility. You can go to any health care professional you want without a referral—inside or outside of your network. Staying inside your network means smaller copays and full coverage. If you choose to go outside your network, you'll have higher out-of-pocket costs, and not all services may be covered.

**ENROLLING WITH
THE NICA HEALTH
PLAN IS SIMPLE.**
