For almost 50 years, the Evergreen Chamber has been a catalyst for growth for the business community. We help our members work together to create power partners, learn valuable marketing skills that enhance their operations and provide a place where small business owners can find friends and colleagues. What we deliver to the public is a vibrant economy creating choices of services, adding to our property values and employing local residents of all ages.

Research shows that a great community needs a great business environment to thrive. The Chamber staff works every day to make sure that that need is addressed and met. Some of our members are able to participate in all of the networking activities we provide from leads groups to event volunteering to educational breakfasts. Others are so busy in their business that they cannot attend everything. We do our best to keep on top of what's going on, who provides the services needed in town and make our community aware of how to connect with who we recommend. Our website is an active place to connect with local business, find out what's happening event wise and how our county supports us. Our Facebook page provides relevant information about local business activities, job openings, road closures and much more.

Does your organization belong to the Evergreen Chamber? Thank you, it is a pleasure to give you visibility, credibility and connectivity to your current and future customers. We appreciate the opportunity to recommend you every chance we get to residents, visitors and other businesses. If you are not part of the Evergreen Chamber, give us a call. The Chamber is an effective marketing channel that you may be missing. Plus, research shows that customers are more likely to do business with a Chamber member as membership demonstrates support of the local economy and an interest in positively impacting the community.

Belonging to the Evergreen Chamber is more than just advertising your business and making connections. Belonging to the Chamber is to take part of being in the business of encouraging a thriving economy. It is bigger than just being an owner or employee. It is about being part of the growth and strength of a community you love. It takes a village to create and maintain success, we should all actively take part in creating that success.

Every day the Evergreen Chamber strives to positively affect the lives of our community. We provide business recommendations and act as a central point of information for the mountain area in everything from events to county rules and regulations. We do not have all the answers but we know how to connect you to the people that do. Call us with your questions we are here to help.

Why do businesses belong to their local Chamber of Commerce? They belong because they want to be something bigger than their organization, they want to give back, get involved and make the community a better place.

Remember, visit our website, follow us on Facebook and shop local. Look for the proud member sticker in the window of your favorite local business and be sure to thank them for all they do to support our growing economy.

Featured Member Spotlight: Jefferson Center

Q: What is your business's mission statement?

Jefferson Center is a nonprofit, community-focused mental health care and substance use services provider for Jefferson, Clear Creek and Gilpin Counties. Our mission is to inspire hope, improve lives and strengthen our community by providing mental health and related solutions for individuals and families, with a vision of a community where mental health matters and care is accessible to all.

Q: What is unique about your business?

Jefferson Center is an integral part of the communities we serve. Making access to care easily available and customer-focused is a top priority, which is why we provide services at 23 clinical locations and at 40+ partner sites located in schools, nursing homes, senior centers and more.

Q: What service(s) or product(s) do you offer/manufacture?

Jefferson Center offers an array of mental health, substance use and wellness services for all clients based upon individual needs. A full list can be found on our website at jcmh.org, but include: access and emergency services, family services, adult outpatient and intensive services, senior services, vocational services, wellness services, navigation services and veteran services.

Q: Is there anything else you would like your fellow Chamber members to know?

Did you know that Jefferson Center offers Mental Health First Aid classes at no cost to the community? We are working towards decreasing the stigma of mental health issues and supporting the mental health needs in the county by working to make knowing MHFA as common as knowing CPR.

Mental Health First Aid (MHFA) is an innovative course designed to give you the tools to recognize a range of mental health problems, and the skills and confidence to help someone in a mental health crisis. Established as the gold standard for helping individuals understand mental health and substance use disorders among friends, family, and neighbors, the program offers a concrete plan to help someone in crisis connect with appropriate professional, peer and self-help care.

On Sunday, Oct. 6, we are holding a Youth Mental Health First Aid class designed for adults who regularly interact with you people ages 12-18, in Evergreen. For more information and to sign up, visit jcmh.org/mhfa

News from our Jefferson County Board of Commissioners

Vote Yes on 1A to Avoid Painful Budget Cuts

Jefferson County Commissioners have put Issue 1A on the November ballot – asking voters to suspend TABOR revenue limitations from 2020-2026. Without 1A, the county will have to cut \$16.1 million from its 2020 budget, including cuts to public safety, roads, and other essential county services. To learn more, visit KeepJeffcoSafe.com.
