## How Award Winners are Chosen

Honoring outstanding nonprofits and volunteers is something that the Evergreen Chamber and Leadership Evergreen partner together and present each year. Many have asked how the process works.

Honesty and integrity drive the process for choosing the winners for any of our awards events. How winners are selected is a complicated and thorough process involving many local business owners and our community. The first step is to open public nominations that have a clear, concise set of qualifications for each category. Sometimes businesses do not meet the nomination criteria and are removed from the process. Once the final list of nominees is available a public voting is open. The purpose of the public voting is to give the nominees exposure and let the public know of the honor.

Simultaneously a committee of 15-20 business owner volunteers and Chamber staff interview the nominees. The committee then comes together to discuss each one. For each category the volunteers are asked to rank their first, second and third choice. These votes are kept secret and tallied by the Chamber President. First choice gets 5 points, second choice gets 3 and third choice gets 1 point.

Finally, a weighted average is used to combine the committee points and the public voting points. 90% of the weight is from the committee, 10% comes from the public process. This is how the winners are determined. Why only 10% for the public part? Some nominees know tons of people and can gather many votes, some do not and we need to keep it fair. Awards are given for a job well done not just who you know.

We are always looking for volunteers to assist with selection and the public is invited to join our committee. Just call the Chamber Office and let us know to add you to the list. Nominees are not eligible to be on the selection committee for obvious reasons.

All that being said, let's get to the fun part of an awards event. We invite YOU to join us in celebrating those who give back to our community. The Honoree Celebration will be held at the Evergreen Elks Lodge on March 5th from 5:30 to 8:30 pm. Tickets are \$40 and the public is invited!

# Evergreen Medical Acupuncture

**Interview with Jill Zundeleovich, Acupuncturist**  
**30480 Stagecoach Blvd, Evergreen**  
**(303) 594-8348 | drchristinafick.com**

## **Q. How did you get started in this business?**

While working in biotech, I started suffering from debilitating migraines. After exhausting all other resources, I turned to acupuncture to see if it could help. Not only did it get rid of my migraines, the acupuncturist addressed all other areas of my health and I was shocked at how simple but effective this type of medicine is. After obtaining my master's in Traditional Chinese Medicine, I began working and after a few years I realized there was so much more knowledge to gain so went back for a doctorate as well. Although it was a long and arduous path, I am thankful every day that I chose to endure and become the practitioner I am now.

## **Q. What is unique about your business?**

We are dedicated here to always be at the forefront of research and knowledge in the field. We are continually taking classes to further ourselves to make sure we have every resource necessary to help our patients. I have been a specialist in the field of fertility acupuncture for my entire career and now I am combining that with the functional medicine aspect that this clinic specializes in. That gives me the unique ability to call myself a functional fertility specialist and to address my patients in a much more in depth manner.

## **Q. Why do your customers select you over your competitors?**

Our patients know they are getting high quality care at Evergreen Medical Acupuncture from two doctors of acupuncture. We are consistently furthering our education and implementing new information and research to our practice on a regular basis. We practice functional medicine which means we analyze blood labs to discover the root causes of diseases or problems in the body. We are not symptom chasers and our patients never walk out the door with handfuls of supplements. We precisely uncover the reason for the symptoms and treat accordingly.

## **Q. How did you get the background and skills necessary to run this type of business?**

My background is in Kinesiology and neurophysiological function which at first, was difficult to switch from a very western medicine mindset to the Traditional Chinese Medicine way of thinking. Since becoming a practitioner, I have melded the two fields and use medical acupuncture and my extensive knowledge of the function of the body to better apply acupuncture to the patient. It has given me an in depth understanding of how the body works and the current research in the field supports this type of thinking and understanding of how acupuncture affects the body. My patients get to benefit from 10+ years of intense study of the body works from a cellular level to a whole.

# Evergreen National Bank

Interview with Deidre Darling, AVP Sales & Service Manager  
28145 Hwy. 74 (Main Street), Evergreen 80439  
(303) 674-2700 | [enbcolorado.com](http://enbcolorado.com)

**Evergreen  
National  
Bank**

Our Service Will Make You Smile.  
Our Commitment Will Make You Stay.

## Q: What is unique about your business?

Because Evergreen National Bank is a local, family-owned community bank, we don't underestimate the power personal customer service. The customers we serve are our neighbors. We find it most important to know each and every customer that walks in one of our branches or calls for assistance. Unlike so many 'big banks', an employee answers the phone every time. No outsourced calls here!

## Q: What is new with your business?

We are proud to announce that we have a new credit card program! We are offering both personal and business credit cards. We are excited to offer some different options depending on our customers needs. Our cards offer either cash back or points for travel! We have even have a purchase card option for those business owners with employees out in the field.

## Q: What is the best part about working for this company?

Community. Plain and simple. We are so fortunate to assist our community in the way of bank accounts, loans, merchant processing, and ACH services. More importantly we are most fortunate to partner with so many organizations in Clear Creek County and Evergreen. The connections we have developed over the last 40+ years are really special.

## Q: What made you choose your current location?

The main branch in downtown evergreen has been a financial institution for decades and iconic in the landscape. We also have beautiful historic branches in Georgetown and Idaho Springs. It is worth a quick drive to visit those branches and step back in time! For your convenience we also have drive-thru branches right off the highway in Idaho Springs and Bergen Park.

**Rotary**

Club of Evergreen Colorado

## What's in it for me?

You've probably asked yourself this question if you've ever considered joining a service club. Here are the reasons given most often by our members:

- A great way to meet like-minded people in the community
- An opportunity to be involved in meaningful service projects in Evergreen and internationally
- Excellent business networking opportunities
- A way to set an example of service and philanthropy for my young children
- Giving back has never been so much fun

## You're Invited

**What:** Rotary Breakfast, Fridays, 7.00 a.m.

**Where:** Evergreen Country Day School, El Rancho (behind Home Depot)

**Why:** Because we value our Evergreen Community and welcome those who'd like to get to know us to share in our fun, enjoy engaging speakers and build your business.

**Connect:** Log on to [evergreenrotary.org](http://evergreenrotary.org) for a list of speakers. Call or email Chuck Adams if you'd like more info and/or wish to attend [chucka@1updrones.com](mailto:chucka@1updrones.com) - 972-567-2059

# RPM Agency Insurance Brokerage

**Interview with Michele Robbins, Owner**  
**4611 Plettner Lane Suite 102, Evergreen**  
**(720) 683-0010 | rpmagency.com**

## Q: How did you get started in this business?

Previously provided protection to fortune 100 companies and realized I like working with people and felt I was providing a bigger impact by working with families and their household and small businesses.

## Q: What is unique about your business?

We video record all homeowners' personal belongings. 10% of the public knows they should have a record of their things and only 1% does. We see this as a gap we needed to fill.

## Q: Why do your customers select you over your competitors?

We provide a full coverage comparison that many times even includes my competitors. I also send my clients to my competitors when there's a need for something I do not provide.

## Q: Does the company give back to the community? In what ways?

Everyday. Mostly regarding Fire Mitigation. I work with multiple non-profits and Rotary but Fire Mitigation so "no home or business is left behind":

- I am appointed to the Jeffco Fire Task Force led by Lesley Dahlkemper (Jeffco Commissioner)
- I work directly with Rep Lisa Cutter who in turn has presented 3 bills to State Legislation for funding for Fire Mitigation and funding for Wildfire Education
- I've successfully testified (many times) to the legislation committees on behalf of these bills
- I have fire mitigation seminars at my office several times a year of which I require my clients to attend within their first 12 months with my agency
- I initiate new CWPIP communities through my fire mitigation seminars
- I reached out to and worked with Jeffco Economic Development for a "responsible" logging company that could be a strategic part of the solution. It was completely successful. I'm now helping to create partnerships with them with companies such as Xcel. Xcel is not clear cutting the trees in the easement of their electricity poles as much as they should and since this act will create added "fuel breaks" in our foothills, this is an excellent partnership that both parties are excited about.
- I've recently started a series about Wildfire in my advertorial in the Life Styles insert of the Canyon Courier
