## After your 2nd COVID-19 shot:

Continue using all the tools we have to help stop  
the pandemic:

- Wear a mask when around others
- Practice social distancing
- Avoid crowds
- Wash hands often
- Stay home if you are sick

---

Common side effects after the shot:

Pain and swelling in arm

Fever

Chills

Tiredness

Headache

If side effects do not resolve within several days, call your healthcare  
provider
