28						

Preliminary EEA entry process

Final EEA entry process

New this year: ACEC/MN is using an online submission form to streamline the entry process

Like 2020, we are using the ACEC National website for final entries

Here's what you need to apply:

Details for required documents are outlined once you start your submission through the ACEC EEA website.

- Project name, location, date of completion, and client name
- A brief project description, not to exceed 125 words
- One digital image, drawing, or artist rendering, table/chart, or report that indicates the nature of the project or achievement (digital image, format as JPEG, CMYK at 300 dpi)
