**Title:** The Brain & Prayer: That We Would Discern & Do The Will of God

**Description:** One-third of professed Christians has a deep desire to integrate their faith and work, and live and lead with Christlike character and influence. Good news for Integrators: Neuroscience is confirming the practical, proven spiritual practices that literally rewire our brain (renew our mind!), strengthen our soul, cultivate Christlike character, and deepen our discernment.

**Category:** Faith and Work, Spiritual Growth, Professional Growth, Christian Issues and Responses
