

# Hit the road with an Innovative leader in Workers' Compensation

In the trucking industry you face tough challenges every day. The health and safety of your drivers is a top priority. Alloy is a proven partner for Ohio employers who need effective coverage while providing cost controls that make an impact on the bottom line. Everyone promises results, but if it doesn't make a big impact, why bother?

## Workers' Compensation

Alloy's professional risk management team provides workers' compensation coverage for our customers across the country. In Ohio where choices are limited Alloy clients enjoy access to a Self - Insured workers' comp fund.

Ask about our new Alternative Employer Organization (AEO) program. Ohio employers now have access to a simplified program for Workers' Comp coverage without having to worry about EIN changes for employees or changes in tax reporting.

## Endorsed by

*"At Garner we were looking for a partner with expertise in worker compensation issues. I have found a good ally in Alloy! I have confidence Alloy will represent Garner well and make sure my employees are properly managed so they stay safe on the job and if needed return to work happy and healthy!"*

Sherri Garner Brumbaugh President/CEO/Owner  
Garner Trucking, Inc Findlay Ohio/GCM Fremont, Ohio

## Built for Ohio

Alloy's Workers' Compensation Plan will allow you to move out of the State Fund, reduce costs and benefit from a convenient pay-as-you-go model as opposed to lump sum payments and audits.

- Lower premium costs
- Eliminate payroll true-up and BWC audits
- Pay-as-you-go premium model
- Alloy claims management
- Legal representation is provided
- Focus on cost control, safety and litigation management
- Eliminate requirement to bifurcate Ohio payroll and miles
- Protect company resources and save money

## Risk Management and Safety

Alloy provides risk management expertise and solutions that meet the specific needs of the trucking industry and its drivers. Our focus is on cost control and safety which go hand-in-hand in an effective program. This assures that your employees are more likely to be injury free and won't have a negative impact on the program.

- Safety Assessments
- Workers' Comp Incident Follow-ups
- Focus on return to work
