Our mission at Corus Health is to bring out the courage in others. We possess an intimate knowledge of what a patient's journey looks like—from where they've been, to where they're going, and how that means we should care for them. This makes Corus better equipped to treat patients in many ways in the comfort of their own home, assisted living, or skilled nursing facility, wherever their journey leads them and over longer periods of time. Corus is aligned to help that patient achieve his or her goals and provide a better quality of life. With our unique experience caring for patient's across the continuum of care, we can treat a patient better, which is what differentiates our home health and hospice care team from other service providers.

Corus has also established Corus Academy, creating a learning experience focused on educating and adding new healthcare workers into our community because our community is the Corus Health commitment.

At LD Supply Company, we are dedicated to creating long-term relationships with our customers. Our experience, integrity, and exceptional customer service standards make LD Supply the best choice to meet your business needs.

Gimmicks and cheap products are flooding our market making it harder for end-users to determine the difference between an industry trend and a dead-end road. Making a wise choice can be the difference between a blown budget and a successful program. At LD Supply, we provide systemic thinking that incorporates all of the diverse aspects of cleaning and maintenance. We design reliable, consistent plans in which each individual component relates to the whole. The result is a well-built system that meets our clients' needs.

A local, family-owned company, LD Supply is neither the largest nor the smallest distributor in the Southwest, but we believe we are the best at what we do. We offer products from suppliers that have been in the industry for over 100 years, like Buckeye International, as well as solutions from start-up companies that have solved newly emerging problems.

sarah.ortiz@promedica.org

Booth: 4

Heartland  Hospice is now part of ProMedica Senior Care

HOSPICE IS A PHILOSOPHY OF CARING

Hospice care is specialized care that focuses on supporting you and your loved ones during an advanced illness. The emphasis is on comfort and quality of life, rather than on finding a cure. Hospice care enables you to live each day to the fullest as comfortably and dignified as possible. Hospice care not only helps with managing your symptoms but also helps you and your family with emotional and spiritual support. We provide care wherever you call home: in your house, a skilled nursing center, an assisted living facility, or an independent living facility. Our caregivers help create individualized care plans, set personal goals, and manage pain and symptoms. Every patient is different. With different challenges, different needs, and different family and friends. So the care we give each patient is different.

Quantum Technologies Global

Senior PsychCare is on a mission to create a better quality of life for seniors, staff, and their families.

We pledge to deliver compassionate care, reliable service, and advanced treatment for the emotional, social, and psychological well-being of seniors. By offering a holistic approach to senior with our Collaborative Care Model, we can:

- focus on long-term patient care;
- create an attainable treatment plan and GDR goals; and
- ensure these goals are met through regular behavioral rounds.

In addition, expansion of our Virtual Health Network throughout our facilities removes barriers to patient visits, improves communication with nursing home staff, and delivers medical records through a secure channel.

A comprehensive approach requires assessing cognitive deficits, underlying depression and anxiety, co-existing medical illnesses, medications, family issues, social concerns, and environmental issues integrated into a comprehensive program of care with the Nursing Home Staff. Call us at 786-697-1312 to learn how we can help.

SimplyThick gel improves hydration and nutrition for people with dysphagia! SimplyThick gel is made from xanthan gum, a soluble food fiber, so unlike a starch thickener, beverage thickness is maintained in presence of saliva without any graininess, powder lumps, or aftertaste! SimplyThick gel thickens both hot and cold beverages (water, coffee, juice, ice, soda, supplements, milk, tea, soup, beer, wine, mixed drinks and more!) without separation or continued thickening over time. SimplyThick is low in calories, carbohydrates and sodium, as well as vegan/vegetarian, gluten-free, Kosher, IDDSI-compliant and free of common allergens. For more information, samples and/or demonstrations, please visit our website at www.simplythick.com or contact Erica Gradwell, MS, RD at erica.gradwell@simplythick.com or 303-550-8885.

SYNCRONYS provides a statewide Health Information Exchange (HIE) that allows authorized healthcare professionals, to access the patient's health history in one centralized record. An average person sees 18 different doctors in his or her lifetime, without an HIE vital patient history can get lost in the shuffle. Data sharing improves quality of care, decreases healthcare cost and improves the chances of saving lives by providing real-time, coordinated patient data.

Top Notch Grips

Like many inventions, Top Notch Grips were born out of necessity. With 20+ years working in Skilled Nursing and Long-Term Care Facilities, our founder learned that managing portable oxygen tanks is a challenge. Approximately 50% of patients in nursing homes are on oxygen, and many of those folks are in wheelchairs. Most often, the portable tanks are draped over wheelchair handles. This results in a tank that is susceptible to falling backwards off the wheelchair (often resulting in damage to the tank) or slipping forward towards the patient (who wants a tight strap across their back?). The oxygen tubing/nasal cannula can get caught in the wheelchair and become a tangled mess or drag on an unsanitary floor behind the wheelchair.

Top Notch Grips have a patented design that includes a wide notch to accommodate the strap of a portable oxygen tank or concentrator, and two small notches that neatly secure the nasal cannula. There's nothing like having the sense of security that Top Notch Grips provide. They eliminate the likelihood of portable tanks and concentrators falling off the handles and resulting in costly damage, possible injury, or having to replace nasal cannulas that have fallen on dirty floors. Top Notch Grips are proudly manufactured in New Mexico, USA. We want to be on your wheelchair, in your catalog, or at your facility! Please email us for any questions you may have about them at: topnotchgrips@gmail.com
