COVID-19 BUSINESS IMPACT REPORT: BBB SURVEY OF SMALL BUSINESSES REVEALS CHALLENGES, GROWTH OPPORTUNITIES, FUTURE NEEDS

Cash flow, health and safety, and meeting customer expectations are the top challenges facing BBB Accredited Businesses. And while the perceived impact over the next 60 days is lower than when we asked the same question in March, companies are identifying new opportunities to keep their doors open.

JUNE 2020 REPORT: CHALLENGES > OPPORTUNITIES

In March, 87% of businesses surveyed by BBB anticipated the pandemic would harm their company. Two months later, 71% of companies expect the epidemic to impact them negatively when asked the same questions.

Similarly – businesses surveyed projected less of an impact over the next two months versus what they initially reported in March.

Cutting costs and taking advantage of financial federal assistance programs certainly helped businesses weather the storm. Nearly three-quarters of the firms who applied for assistance said they received funds.

Although the pandemic is far from over, many businesses are focused on how to make the second half of 2020 a success. Attracting customers, building relationships, and supporting the community are the top takeaways for small business owners surveyed by BBB.

OHIO CHAMBER HEALTH BENEFIT PROGRAM OFFERS HEALTH SOLUTIONS TO OHIO'S SMALL BUSINESSES

As all of us begin the process of recovering from the COVID-19 pandemic and these unprecedented times, the Ohio Chamber of Commerce is here to provide support, guidance and resources to help the state's small business owners get back on their feet.

Part of that support is providing affordable access to health care.

Last year, the Ohio Chamber of Commerce partnered with UnitedHealthcare to offer a robust benefits package for small businesses. As a member, employers and their employees receive access to a range of products and services that not only drive productivity but that will ultimately impact their company's bottom line.

The Ohio Chamber Health Benefit Program (OCHBP) provides eligible small business owners access to a portfolio of health care options. OCHBP is administered by UnitedHealthcare, the

country's largest health insurance provider, and offers Ohio Chamber members up to 25 percent savings on health benefits. The OCHBP is tailored specifically for Ohio businesses with tow to 50 employees.

As an Ohio Chamber member, small business owners have the opportunity to join with other small businesses throughout the state, including the plans that are not typically available to small businesses. Ohio Chamber members will be able to choose from a variety of PPO (Preferred Provider Organization) and HSA (Health Savings Account) health plans offered by UnitedHealthcare.

There are several advantages of selecting an OCHBP plan. United Healthcare's Advocate4Me and Unitedhealth Premium Program are to plans available. To learn more, visit www.ohiochamber.com/health-benefit-program/.

GAIN A COMPETITIVE ADVANTAGE BOOSTING YOUR MARKETING IN A DOWN ECONOMY

It's safe to say that the coronavirus outbreak has touched every aspect of society - personal, business, health care, government and social services. As the world collectively handles and works through the uncertainty caused by COVID-19, many business owners now find themselves in uncharted territory, with nothing but more uncertainty ahead.

How long will the coronavirus pandemic last? Will the economy skid into a severe recession, or even a depression? How long could that last? How will my industry change? How will consumers and my customers change? What will the world look like when this is all over?

There are endless questions and virtually no answers. Even so, it is possible to come out of this stronger. And now, more than ever, is the ideal time for you and your team to come together and strategize methods that will allow your company to survive and succeed.

UPDATE YOUR BUSINESS STRATEGY TO FOCUS FORWARD

As the leader of your company, all eyes will be on you as the business determines ways to continue thriving while dealing with unplanned fluctuations. As you work to create your new normal, it's imperative to make sure all team members understand that, if possible, the business must still focus on the ultimate goal — providing top-notch products and services for your clients.

CONNECT WITH YOUR CUSTOMERS

As we all continue to do our part to flatten the COVID-19 curve — practicing social distancing, having employees work remotely and following the protocols required to keep customers and employees safe — many business owners are asking how they can best support and connect with their customers in ways that are respectful

and sensitive to the current, unprecedented circumstances.

FOCUS ON CUSTOMER RETENTION

Often, marketing efforts are focused on positioning your company to get new customers and clients. Most small to mid-sized companies focus their marketing budgets almost exclusively on customer acquisition, and they are hesitant to spend much, if anything at all, on initiatives that keep their company brand alive and well within their organizations. As consumers, we know ourselves who excels at providing a customer experience that keeps us coming back.

BOOST SPIRITS WITH HELPFUL CLIENT COMMUNICATIONS

By using clear communication on your website and in social media, e-blasts, newsletters, blogs and more, you can make clear to your valuable customers that your company is staying on top of this global pandemic and is prepared to do its best to maintain a stable level of customer service and support. Always remember to keep it positive, too!

SHOW SUPPORT FOR LOCAL BUSINESSES

Businesses everywhere are struggling to maintain the production levels that they experienced before COVID-19. Showing unity with local businesses in your community during this time is an incredibly touching way to help businesses as they navigate through this period and to demonstrate to customers that — right now — you are dedicated to the greater good of the community. Is there a business that your company relies on to keep your products and services operating? A charitable cause that has affected an employee on your team in some way? Take a moment to feature them.

"THE MAN WHO WILL USE HIS SKILL AND CONSTRUCTIVE IMAGINATION TO SEE HOW MUCH HE CAN GIVE FOR A DOLLAR, INSTEAD OF HOW LITTLE HE CAN GIVE FOR A DOLLAR, IS BOUND TO SUCCEED."
