Partnership promises a 'greater' Sandusky

By: Andy Ouriel July 23, 2022

SANDUSKY — Working together can create a greater outcome for the entire area.

And it's the mindset Sandusky officials adopted when reviewing and ultimately approving a \$150,000 financial commitment for the Greater Sandusky Partnership. The vote among commissioners, over these local dollars, occurred at a recent public meeting.

In short, the Greater Sandusky Partnership aims to make Sandusky and Erie County a better place for all.

Funds secured can help the partnership pursue objectives outlined for population growth.

BWC On-Site Classes

BWC is once again offering in-person occupational safety and health courses as a benefit for Ohio employers with active workers' compensation coverage and their employees at no extra charge.

Here is the link to classes all over the state: [**BWC On Site Classes**](#)

Annual True Up Report Reminder

BWC determines employer premiums based on the amount of payroll (exposure) reported multiplied by a specific rate. At the beginning of each policy period, we'll set an estimated annual premium (EAP) as follows:

- For a new employer, we'll establish your estimated annual premium by using the 12-month payroll estimate you submitted on your application for workers' compensation coverage.
- For an existing employer that had coverage before this policy period, we'll establish your estimated annual premium by using the estimated payroll from the previous policy year.

Here are links for information on reporting the annual True Up report and information on payroll reporting

Substance Use Recovery Program

This program reimburses employers for expenses associated with implementing a substance use program. BWC partners with your local Alcohol Drug Addiction and Mental Health Boards to administer the program or employers are directly reimbursed through the BWC. The program reimburses employers for:

- Pre-employment, reasonable suspicion, post-accident, random and return-to-duty drug screens if the employer has a written "Second Chance" drug testing policy
- Development and legal review of employer policies and procedures about substance use issues
- Training for employees to understand substance use and their employer's related policies
- Training to equip supervisors and managers to better manage employees in recovery

ROBERT SPRAGUE

OHIO TREASURER

Empowerment, Independence, and Stability through STABLE Account

By Ohio Treasurer Robert Sprague

August is ABLE to Save Month, and there is no better time to raise awareness about the life-changing impact ABLE accounts can make for people living with disabilities.

With costs rising on nearly everything we buy and ongoing economic challenges nationwide, Ohio families are feeling the squeeze. And, as many know all too well, disability-related expenses can pose additional financial strains.

However, in the Treasurer's office, we have a powerful tool to help alleviate some of those financial pressures, unlock each person's potential, and make our communities and economy stronger. Through STABLE Account – Ohio's ABLE program – the Treasurer's office plays a key role in the effort to enhance financial independence and stability for people living with disabilities and their families.

Before STABLE accounts, people living with disabilities could only save \$2,000 before losing means-tested benefits such as Medicaid or Supplemental Security Income (SSI). These old rules discouraged saving and investing, and asset limits often kept individuals living in the financial margins.

STABLE accountholders can save up to \$16,000 each year without jeopardizing federal assistance. If the accountholder is employed, they can save an additional \$12,880 each year. Earnings on STABLE accounts grow tax-free, as long as funds are spent on qualified expenses, such as education, transportation, healthcare, assistive technology, personal support services, and many others.

For individuals living with disabilities and their families, a STABLE account can be life-changing as it provides a secure and sound way to manage funds and navigate various disability-related expenses. Additionally, for those wishing to enter the workforce, opening an account can help build the foundation for independence throughout adulthood. We've heard many stories of accountholders buying cars, paying rent, and even putting down payments on their first homes. This financial stability is powerful and can provide the peace of mind that comes with a plan for the future.

As the nation's first and premier ABLE program, STABLE Account now serves nearly 30,000 accountholders. In the Buckeye State, we've seen how STABLE accounts improve financial stability, promote independence, and improve quality of life. There's always more work to be done, but during ABLE to Save Month, we have plenty to celebrate.

We encourage you to share this information with anyone you know who could benefit from a STABLE account. Signing up for an account is easy – it only takes about 20 minutes and can be done from the safety and comfort of home. For more information about STABLE accounts and to sign up, visit www.stableaccount.com.
