**DETERGENT DISINFECTANT**

## **TO COMBAT COVID-19**

Maintaining high environmental hygiene is critical in all industries. Auto-Chlor heard your requests and concerns during this crucial time and has developed a Ready-to-Use product designed to assist you in protecting and preventing further spread of the COVID-19 bacteria.

XPRESS Detergent Disinfectant is a phosphate free formulation designed to provide effective cleaning, deodorization, and disinfection specifically for hospitals, nursing homes, schools, food processing plants, food service establishments, office buildings, lodging establishments, retail businesses, athletic/recreational facilities, sports stadiums, amphitheatres, convention centers, and households where housekeeping is of prime importance in controlling the hazard of cross contamination. XPRESS Disinfectant Detergent is a Ready-to-Use, one-step detergent disinfectant that is effective against a broad spectrum of bacteria, is virucidal\* (including COVID-19, HIV-1, HBV and HCV) and inhibits the growth of mold and mildew and their odors when used as directed. XPRESS Ready-to-Use Detergent Disinfectant delivers sporidical efficacy but has been designed for daily use. It is an EPA-registered, dilutable concentrate that is effective against *Clostridioides difficile* endospores, *Candida auris* and a broad spectrum of other organisms in a non-bleach formula. With broad spectrum efficacy and superior material compatibility, XPRESS Detergent Disinfectant truly enables product standardization and efficiency improvements. Only one product is needed for daily cleaning, disinfection and isolation.

Designed with precise components to deliver the correct dilution of EPA approved sanitizing agents. XPRESS Detergent Disinfectant is an Auto-Chlor Ready-to-Use solution that is EPA APPROVED for Emerging Viral Pathogens, such as the COVID-19 (Coronavirus).

## **FEATURES**
