

**Butterfly:** Essentially an inverted Gable roof, with the peak (ridge) lower than the eaves. Very popular roof type of late 1950's and early 1960's coffee shops/diners.

**Dutch Hip:** A roof where a small hip section is constructed near the ridge of a gable end.

### Roof Identification Components Worksheet

Directions: Write the component name on the corresponding line.

1.	_____	7.	_____
2.	_____	8.	_____
3.	_____	9.	_____
4.	_____	10.	_____
5.	_____	11.	_____
6.	_____		_____
