

Stair Layout Worksheet

Given the total rise below, determine the riser height, number of risers, number of treads, and length of 2x12 stringer needed for 2 stringers (rounded up to the nearest foot). Please show calculations in box to justify your answer.

Total Rise	Riser Height	# of Risers	# of Treads	Stringer Length
48"				
70 1/2"				
9'				
97 1/4"				
23 3/4"
