**Key Biscayne, Florida – FOR IMMEDIATE RELEASE** – The Professional Association of Diving Instructors (PADI) has honored Diver's Paradise Key Biscayne with an award for 40 years of excellence in the scuba industry.

PADI is the world's leading diving association that focuses on comprehensive recreational and professional scuba training – setting high-quality standards for future scuba enthusiasts and instructors. For more than 40 years, Diver's Paradise has worked with PADI to build scuba programs that teach equality, ecology and safety.

The dive center is a family-run business owned by son Andrew Jarnryd and his father, Erik.

"We are very proud of our long-term collaboration with PADI," Andrew said. "We are excited about our future with PADI and making great things happen. Our scuba community is diverse and we love them."

Diver's Paradise is located minutes outside of downtown Miami and Miami Beach. Showcasing an island atmosphere of seclusion and relaxation in [Crandon Marina, Key Biscayne](#), the scuba center features daily diving and snorkeling experiences to the local reefs and wrecks.

During 2022, Diver's Paradise earned Florida university status. The dive center established Diver's Paradise Professional Institute, the only state-licensed scuba diving education school in Miami and the surrounding area. The higher learning curriculum covers the programs and courses that scuba divers need to become certified professionals.

Managing Director Michael Casey cites his well-rounded staff as the catalyst for the scuba center's long-term success. "It has been 40 years of quality, of dedication, of love for what we do," he said. "Tradition, trust and loyalty make us stand out above all the rest."

The dive center features a fully stocked gear store, heated pool, a tank fill station and a fleet of Newton Dive Special charter boats.

Diver's Paradise and Diver's Paradise Professional Institute are open Monday to Sunday—9:00 a.m. to 5:00 p.m. Visit them online at [keydivers.com](#) and [diversparadisepro.com](#).
