**KAREN AULD**

Karen Auld is the founder of the Sustainable Soul Movement. Her mission is to encourage people to radiate love into the world and have fun while doing it.

Karen has worked in the environmental and sustainability field for over 30 years. She is also a certified Success Coach who works with entrepreneurs and business leaders to grow their love-centered ideas. She mixes the mojo of science and spirit to create programs that support her client's growth and peace of mind.

When she is not giving talks or coaching, you can find Karen outside in nature or watching her favorite shows, Stranger Things and RuPaul's Drag Race, with a cat on her lap.
