

Advancing information behavior research: An examination of “flow” and “derivatives”

Waseem Afzal-School of Information Studies
Charles Sturt University, Australia

SIG-USE Symposium - 2018

Background

- Need Theories
- Properties of Information
- Research in Information Behavior

Background

- Need Theories
 - Maslow
 - Ryan and Deci
 - Max-Neef

Background

- Properties of Information
 - Quantitative
 - Affective
 - Distributional
 - Economic

Background

- Research in Information Behavior
 - Bates
 - Kari & Hartel
 - Burnett & Erdelez
 - Wilson
 - *Spink & Heinstrom*
 - *Nahl & Bilal*
 - *Fourie & Julien*

Advancing Information Behavior Research – Flow

- Intentionally ordered information
- Feedback
- Transformation of time
- *First-order effect*
- *Well-being*
- *Personal development*
- *Identification of addictive information
behavior experiences*

Advancing Information Behavior Research – Derivatives

- Value
- Bundling
- Cost
- *Information behavior as an economic derivative*
- *Information behavior as a social derivative*

Thanks.
