MESSAGE FROM THE ASIS&T PRESIDENT

Welcome to ASIS&T 2019!

We are delighted to bring our Annual Meeting to Melbourne, Australia. This is ASIS&T's first in this part of the world. We hope this meeting will foster new connections amongst our ever-increasing international members and encourage more of these international ventures.

Our 82nd meeting offers an outstanding programme of rigorously refereed research presentations, panels, workshops and tutorials that will inspire and stimulate your thinking about a myriad of information-centric topics. New at this meeting are incubators and 'pop-up' research discussions, both of which are intended to initiate new conversations and potentially projects that should spill over long after the meeting has ended and we are winding our way back to our respective homes.

Take some time to chat with exhibitors and take advantage of having a one-on-one chat with the poster presenters which can be inspiring for both parties. As usual, there is a myriad of receptions to promote our face-to-face conversations that can be so difficult in the virtual worlds.

Don't forget the business meeting on Tuesday to hear about the latest developments inside the Association. We hope to see many of you bright and early on Monday at my Town Hall session to hear your ideas concerning the future of ASIS&T — nothing is too big or too small.

Finally, while at the conference, also take advantage of the incredible environment in which the meeting takes place. For many of us, it may be our first venture to this amazing country. Please take advantage of what Melbourne and the rest of the country offer.

I also want to acknowledge and thank our conference co-chairs, Cathy Blake and Cecilia Brown, for the fantastic job in masterminding this event, and our Executive Director, Lydia Middleton for her seemingly tireless efforts in keeping the ship on course this past year.

Enjoy the meeting. I hope to meet many of you while you are here, and please also introduce yourself.

Elaine Toms, PhD
President, ASIS&T &
Professor of Information Innovation & Management, University of Sheffield, UK

ANNUAL MEETING CODE OF CONDUCT

The ASIS&T community is diverse and inclusive, and this meeting is intended to be enriching and safe for everyone who attends. We expect all attendees, speakers, sponsors, and volunteers to treat everyone else respectfully, regardless of race, religion, gender, sexual orientation, disability, physical appearance, opinion, or national origin. Harassing behavior, such as offensive verbal comments, deliberate intimidation, sustained disruption of talks, or unkind feedback will not be tolerated. If you believe you are being harassed, notice that someone else is being harassed, or have any other concerns, please notify ASIS&T staff, who will assist you to ensure you feel safe and that the issue is resolved. ASIS&T reserves the right to take any action deemed necessary to enforce this code of conduct. It is our collective responsibility to foster a safe and inclusive environment for all.

GREETINGS FROM THE CONFERENCE CO-CHAIRS

Gday,

Welcome to the 82nd Association for Information Science and Technology (ASIS&T) Annual Meeting. Our meeting is in Melbourne, Australia this year and we respectfully acknowledge and thank the Traditional Owners of this land, the Boon Wurrung and Woiwurrung (Wurundjeri) peoples of the Kulin Nation.

Information has been the root cause of significant changes in economic, social, scientific, political, and personal behaviors; but the benefits of such changes are only realized when information is delivered to the right group, at the right place, at the right time, and in the right way. Thus the theme of this year's conference is "INFORMATION... ANYONE, ANYWHERE, ANY TIME, ANY WAY".

The 'anyone' and 'anywhere' facets of this theme will be highlighted in the opening plenary presentation on "Mixing Reality for Cultural Proliferation', where Mikaela Jade's will share her industry experience that successfully engages indigenous women in technology. Informed by decades of experience with the multitude of information available in health care, the closing speaker, Helena Teede will highlight the importance of delivering information at the right time and in the right way in her presentation entitled 'Changing the Paradigm: Creating a Learning Health System Through Disruption Collaboration'.

The conference leadership team did an outstanding job in managing the review process and we extend a hearty thank you to the paper co-chairs VG Vinod Vydiswaran and Theresa Anderson, the poster co-chairs Ian Ruthven and Dan Wu, the panels & alternative events co-chairs Joan Bartlett and Dietmar Wolfram, and the doctoral colloquium co-chairs Pnina Fichman and Howard Rosenbaum. High-quality reviews are also critical to a good technical program and as a token of our appreciation for good reviews we instigated a best reviewer award this year that will be announced during the Opening Session, along with the best paper awards. Poster awards will be announced on Tuesday night.

Our Annual Meeting, like many conferences focus on celebrating work that is complete, but this year, the International Incubator Sessions allow you to look to the future. We have been able to secure international leaders to facilitate a discussion on several key topics and we look forward seeing the fruits of those efforts during in the next to last session of this conference, and hopefully through grants and scholarship in next year's conference.

Kind Regards,
Catherine Blake & Cecy Brown

PLENARY SPEAKERS

MIKAELA JADE

FOUNDER
INDIGITAL

MIXING REALITY FOR CULTURAL PROLIFERATION

Sunday, 20 October, 1:00 - 3:00 PM
Conference Hall 1-3, Level 2, CCC

Mikaela Jade's company Indigital works to develop innovative new ways to digitise and translate knowledge and culture from remote and ancient communities. She has a background in environmental biology. Indigital works with some of the most remote Peoples' on earth using cutting-edge digital technologies to translate cultural knowledge within their communities; showcase their cultural heritage to their visitors in compelling ways; and create jobs in the digital economy. Her signature mobile and hololens app, Indigital Storytelling, uses drones, 4D mapping software, image recognition technology and cultural law to bring the world's cultural sites alive through augmented and mixed reality.
2018 saw Mikaela win several awards for her work including the Veuve Clicquot New Generation Award, the InStyle Women of Style Creative Visionary Award, and Judges Award, and the University of Technology's Alumni Award for Indigenous Person of the Year. In 2018/19, together with Microsoft and Shared Path she is mentoring 31 Aboriginal and Torres Strait Islander women from remote communities to build their own technology platforms. Realising that technology is a powerful tool for transformative and widespread impact, the Digital Custodians are building cultural solutions based on artificial intelligence, blockchain and mixed reality. When women are provided the opportunity to combine culture, creativity and technology as the world shifts. Mikaela is a United Nations Permanent Forum Indigenous Issues delegate, Tribal Link Alumni member.

HELENA TEEDE

EXECUTIVE DIRECTOR

MONASH PARTNERS ACADEMIC HEALTH CENTER

CHANGING THE PARADIGM: DRIVING DISRUPTION THROUGH COLLABORATION TO CREATE A LEARNING HEALTH SYSTEM

Tuesday, 22 October, 4:00 - 5:30 PM
Conference Hall 1-3, Level 2, CCC

Helena Teede is the Executive Director of Monash Partners Academic Health Sciences Centre and Director of the Monash Centre for Health Research and Implementation, School of Public Health, Monash University. She is an Endocrinologist at Monash Health and a NHMRC Practitioner Fellow. Prof. Teede has a leading role in research and translation including large scale randomised controlled trials and evidence synthesis, international guidelines, co-design of new models of care, implementation and scale-up. Prof. Teede holds policy advisory roles, sits on the national NHMRC Research Committee and the Faculty for Research Translation. She has over 300 publications and focuses on women's reproductive health including infertility, PCOS, pregnancy health, gestational diabetes and menopause. She is on the Cochrane editorial group, has completed over 60 systematic reviews and has worked on multiple guidelines including with WHO. She recently led the development of the international guidelines in PCOS following AGREEII and GRADE processes, involving 37 organisations and 71 countries.

PRODUCT THEATER (Sponsored by RDMLA and Elsevier)
Sunday, 20 October | 10:00 AM - 11:00 AM
M10, Level 1, Crown Conference Centre

Developing, Launching, and Applying the RDMLA (Research Data Management Librarian Academy): Building a Global RDM Learning Community

Rong Tang, Simmons University, School of Library and Information Science, will discuss the establishment of RDMLA partnership and the progress of developing RDMLA. The RDMLA is a free online educational program exploring research data management best practices. Developed by a team of librarians and LIS faculty members who want to share their extensive knowledge/skills and promote research data services, the RDMLA consists of eight units which can be taken individually, or as a complete program. All units are available globally and can be accessed online via the Canvas learning management system. RDMLA is open to librarians, information professionals, and other professionals who work in a research-intensive environment throughout the world. Researchers and anyone with an interest to learn more about research data management are welcome. The online units are self-directed and asynchronous, giving learners the opportunity to take the units at a time and pace most convenient for them.

SPONSORS

Association for Information Science and Technology would like to acknowledge and thank our industry partners for their generous support. Without the help of our industry partners ASIS&T would be unable to produce an enriching conference for its dedicated members. We appreciate the commitment that goes into supporting an ASIS&T Annual Meeting and we give our sincere thanks and appreciation to all involved. To all returning partners we thank you for your continued support over the years and to new comers, we hope to grow with you as partners for many years to come.

EVENT SPONSORS

Altmetric

Altmetric (SIG-MET Sponsor)

Altmetric, or altmetric.com, is a data science company that tracks where published research is mentioned online, and provides tools and services to institutions, publishers, researchers, funders and other organisations to monitor this activity, commonly referred to as altmetrics.

SIG III
THE SPECIAL INTEREST GROUP IN INTERNATIONAL INFORMATION ISSUES

SIG III (International Reception Sponsor)

The purposes of SIG III is to promote better awareness among ASIS&T members and information professionals of the importance of international cooperation. Facilitate and enhance better communication and interaction among ASIS&T members and their global colleagues on information issues.

WILEY

Wiley (President's Reception Sponsor)

John Wiley & Sons, Inc., branded primarily as simply Wiley in recent years, is a global publishing company that specializes in academic publishing and instructional materials.

Web of Science Group | A Clarivate Analytics company

Web of Science (SIG-MET Sponsor)

BIRDS OF A FEATHER | M10, LEVEL 1, CROWN CONFERENCE CENTRE

In keeping with the ASIS&T 82nd Annual Conference theme of Information of Anyone, Anywhere, Any Time, and Any Way, a series of Pop-Up Birds of a Feather Series discussion groups will be held throughout the conference. Pop-Up Birds of a Feather discussion groups will provide an informal, round table discussion setting where the international ASIS&T community can exchange research ideas and build contacts for future collaborations. You are welcome to invite colleagues who are not able to attend in person to participate at a distance in a Pop-Up Birds of a Feather discussion group. Topics for the sessions are not limited to those of the paper and panel sessions but will "pop-up" from topics of interest to you that not represented in the program and from interactions at the conference.

ASIS&T Futures -- Which journey do you want to take? Have your say.

You have heard from us over this past year about our thoughts concerning ASIS&T and its futures. Yes, there are many potential avenues. This is your opportunity to talk to your elected members about your thoughts and dreams for ASIS&T. Have a look at the activities and services that we have considered this past year. How ambitious should we be? What are your priorities? It doesn't matter if you are a new or a long-standing member of the Association. If you are not a member, please feel free to be part of the discussion. We will have several hosted theme-based tables to enable small group discussion. No time to sit? Then add to our multiple flip charts in the room or our web-based idea collector.
