

DEEPHAVEN | PRIMARY BATHROOM REMODEL  
NARI MINNESOTA – 2022 CoTY AWARDS | RESIDENTIAL BATH \$25,000-\$50,000

BEFORE

AFTER

## Deephaven Bath Remodel

The homeowners were looking to transform their primary bathroom from a boxy and dark space into a more open and bright space to kick-start their day and to soothingly relax away the end of the day. Transitioning the divided shower and tub spaces into a free-standing tub with just a partition wall from the walk-in shower gives the room a feel of even more space.

The new tub space is also enhanced with its own stone feature wall that ties in perfectly with the contrasting geometric tile flooring. Enhancing the brightness and feel of size with new light grey and white paints on the walls, cabinetry and bench.

New his and hers quartz countertop with new sinks and fixtures.

A final touch with the new cushioning for the refinished bench space creates a user-friendly area for the homeowners. Updated and bright selections in stone, tile, countertops, paint, lighting and fixtures gives this spot an outstanding new look and feel.

### Primary Goals:

- Remove boxy bath area and archway
- Brighten the stand-up shower space
- Update and brighten all cabinetry, woodwork, tile, countertops, lighting and fixtures
