

# Residential Interior Element

## \$30,000 & Over

# PROJECT OVERVIEW

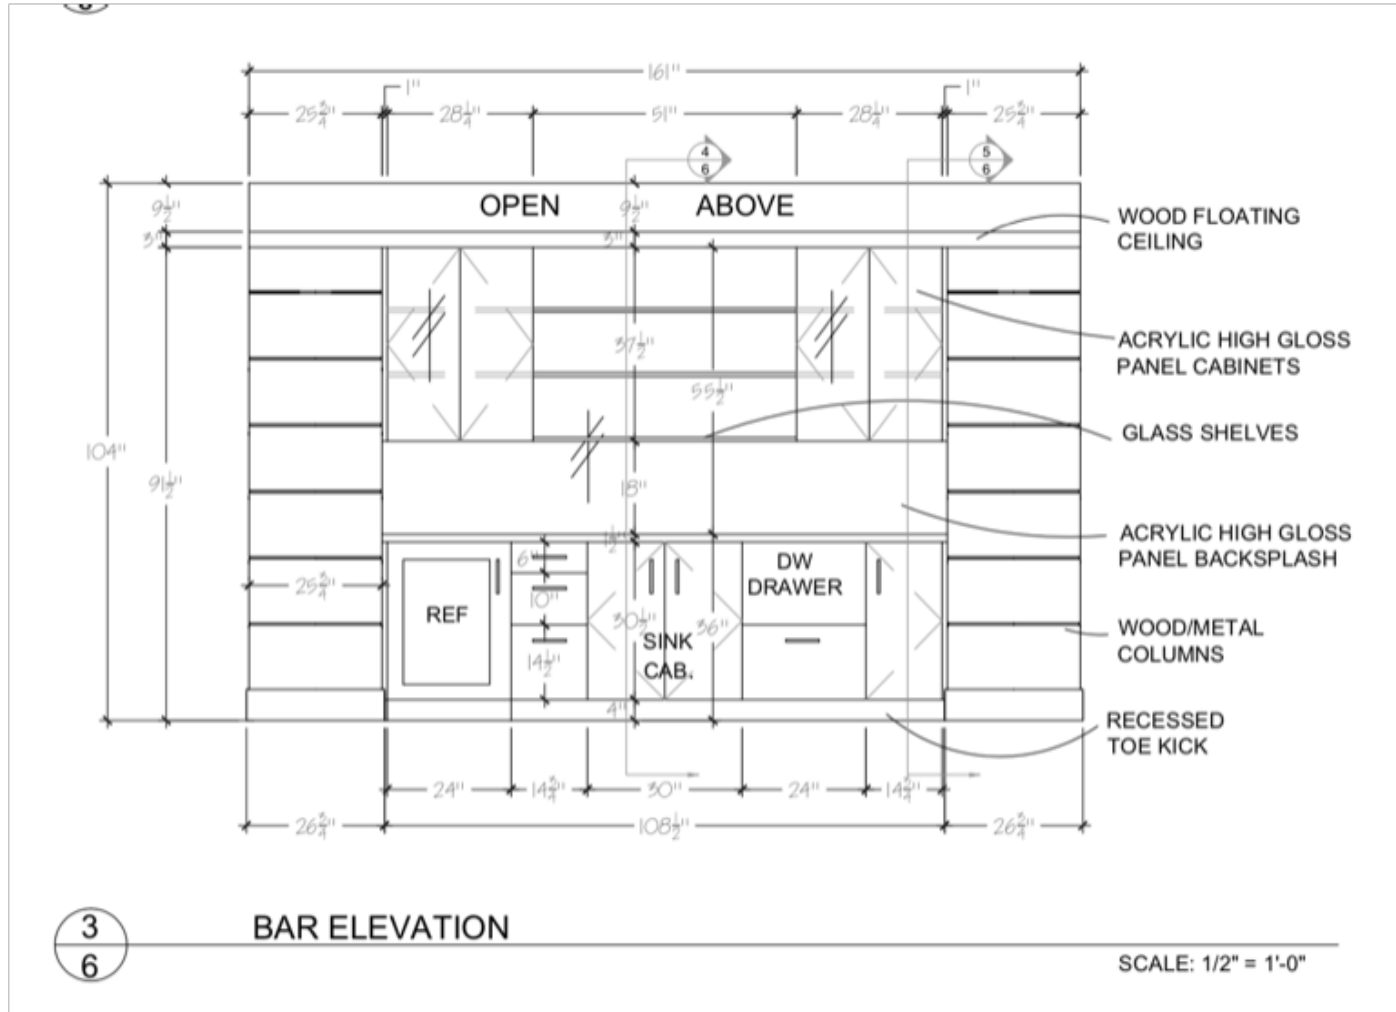

Our clients came to us with an idea to transform their lower level into a space that would feel like a night out on the town. They wanted to refresh the dated area to be an upscale destination for them to retreat to and serve as a spot to entertain family and friends. The lower level was designed to include an inviting lounge area with an impressive gas fireplace and oversized tv, a custom wine-cellar, and a billiards/game area. Undoubtedly, the standout feature of this lower level is the upscale bar. This one-of-kind home bar incorporates a mix of contrasting materials, high gloss acrylic panel cabinets, and sophisticated black countertops giving it a luxury hotel bar feel. The bar includes all the must-have amenities for mixing up a great cocktail - a sink, refrigerator and dishwasher drawers tucked seamlessly below for convenient access, and open shelving for storing glassware. This lower level bar has proven to be our client's new favorite destination for a night out, at home.

# PROJECT GOALS

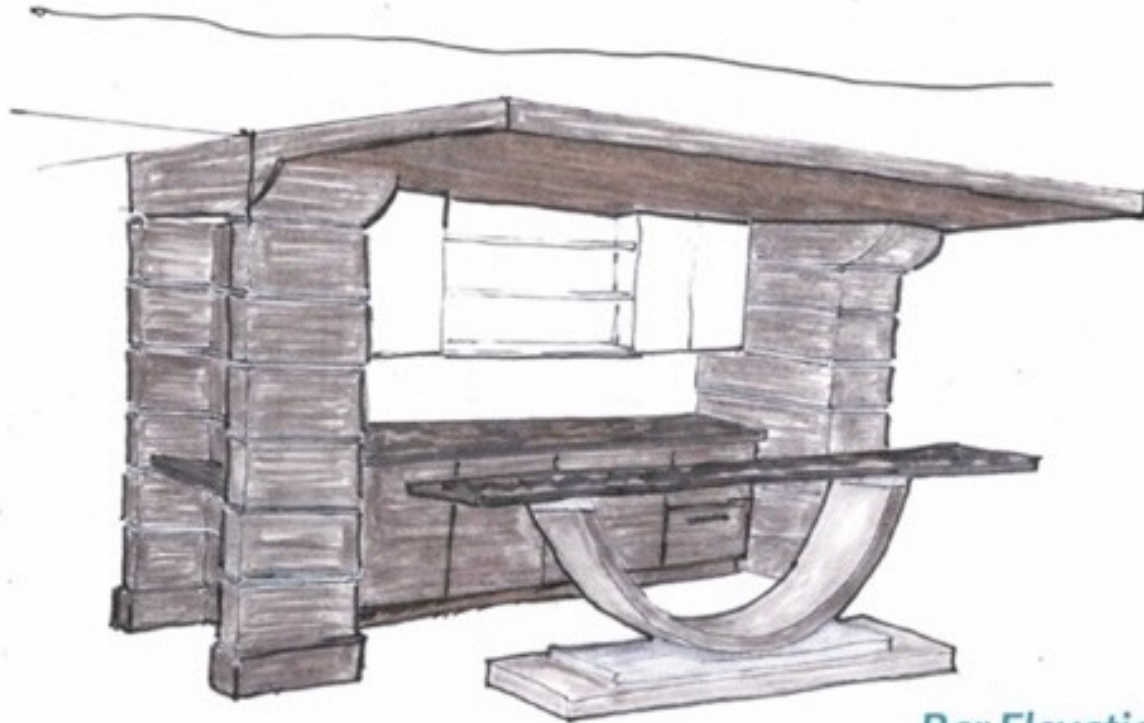

- Create a fun atmosphere that would bring home the elements of a night out on the town
- Create a space that would allow for effortless entertaining
- Incorporate luxury finishes to create a high-end feel

# BEFORE

# CONSTRUCTION PHOTOS

# BEFORE & AFTER

- **BEFORE:**
  - The existing bar was dated in all aspects. The cabinetry, plumbing, and countertops were worn and in need of updating.
- **AFTER:**
  - The impressive new bar brings the wow factor to this lower level.
  - The bar comes complete with a fridge, dishwasher drawers, a bar sink, custom cabinetry, and open, glass shelving for storing glassware.

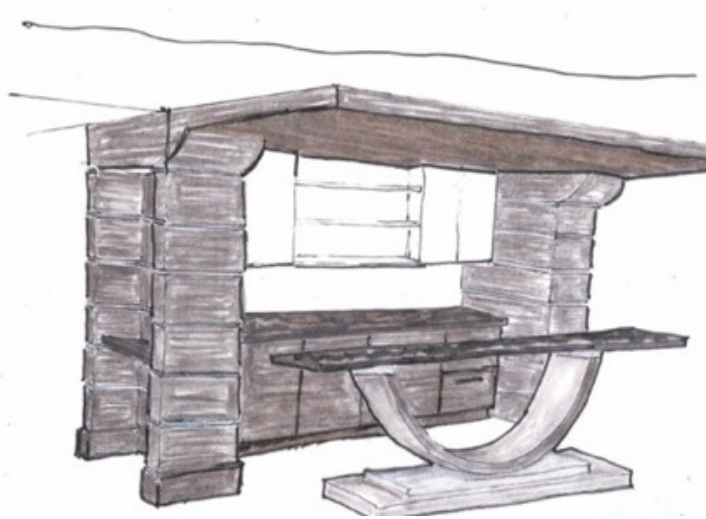

# CLIENT REQUIREMENT / SOLUTION

- **Client Requirement:**
  - Make the lower-level bar feel like an upscale, luxury hotel bar.
- **Solution:**
  - Utilized high contrasting materials, warm wood tones, and ambient lighting to create a hotel-like bar atmosphere.
  - To make the task of mixing up a cocktail easy and efficient, we designed the bar to incorporate: a fridge for keeping drinks and mixers cold, custom cabinetry for storing glassware, a convenient dishwasher drawer to eliminate the hassle of bringing glasses up to the kitchen, and a bar sink for easy water access.
  - Upscale finishes, a modern and fresh design, and quality craftsmanship at this home bar create an atmosphere of a night out on the town.

# CHALLENGE / SOLUTION

- **Challenge:**

- Unfolding the puzzle of the proposed artistic bar sketch and building it out in 3D.

- **Solution:**

- Engaged a talented team of craftsman to develop a plan and execute the making and installation of the floating ceiling, curved cabinetry, and ambient lighting within the acrylic panels.
- Utilizing a CNC machine allowed us to create the unique curves at the tops of the bar posts that were within the proposed artistic sketch of the bar

# BAR HIGHLIGHTS

- Floating ceiling with recessed lighting
- Acrylic panel cabinets with LED lighting to illuminate the space
